DETAILED ACTION

I. The current office-action is in response to the application filed on 9/6/05.

Accordingly, Claims 1-36, 39-53 are cancelled and Claims 37-38, 54-73 are pending for further examination as follows:

Double Patenting

II. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

III. Claims 37-38, 54-73 rejected on the ground of nonstatutory double patenting over claims1-59 of U. S. Patent No. 6959183 since the claims, if allowed, would improperly extend the"right to exclude" already granted in the patent.

The subject matter claimed in the instant application is fully disclosed in the patent and is covered by the patent since the patent and the application are claiming common subject matter, as follows:

Claims 37-38, 54-73 rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-59 of U. S. Patent No. 6959183. Although the conflicting claims are not identical, they are not patentably distinct from each other because all

of the claimed limitations of the present U.S. Application No. 09/772066 for example, see Claim 37 is explained in following table, is transparently found in claims 1-2 of the U.S. Patent No. 6959183 with obvious wording variations.

2. The method of claim 1, further comprising determining the value of the flat rate without relation to minutes of use by the user of the wireless communications services during the period of time.

Response to Argument

IV. Applicant's arguments with respect to claims 37-38, 54-73 has been considered but is moot in view of the new ground(s) of rejection. Therefore, the notice of allowance of claims 54-73 is withdrawn as in previous office-action.
